Can you run specific scripts on these bots?

I need to send specific bytes number, simple script, not a real DDoS (does not consume a lot of power), but causes a lot of damage to the application I need attacked. PM me if you are interested.

Thanks

i didn't see nothing.

VeloCityMods - September 25, 2016, 12:38 pm

Its alright for \$10 i guess.

Hit the cloudflare L7 dstat and got 18K R/s.

Good luck with sales.
