Thread: [Instant deposit skin for credits to buy another skin site?](#)

Silver Fang - September 21, 2016, 7:53 am

Topic, I'm searching for a site like the old csgowild site where you could just deposit an item and get credits for it and buy whatever you want from their skins bank.

Which site offers this and is reviewed and vouched by others?

Thanks in advance

It doesn't have to be a bet site, only a site like opskins but deals in instant credit so that i can change my damn skin ;/

Sign in via Steam

CSGOPolygon would be your best choice, if you sell your knife for 54 dollars, you can get it back for 54 dollars.

But you need to bet \$20 before withdrawing which sucks!

Why not trade on CS:GO Lounge?

Tyronnn - September 21, 2016, 6:02 pm

Not sure how good csgohub.gg is but they have a new swap shop where you can swap your old skins for new ones. I legit only know about this cause I was looking for an email in one of my emails and saw a email from them advertising it. xD

CSGOPolygon (Although you need to gamble a certain % of your balance before you can withdraw)

And SKFPay, which you don't have any fees for, but the skin choice is a lot more limited and worse than Polygon's usually.

Darryn - September 22, 2016, 11:05 am

SKFPay is exactly like this, but they take a 5% commision iirc. Here, might be worth it for you:

Makes ya miss double.

I've used this before. They only offer around 90% but its really easy to use and they have a lot of nice skins on there.

Just a tip , avoid from using sites that people post and they're are unknown onsite / offsite .

Always check google for website reviews.

I've tried to do it however can't find anything that seems worth listening to. I'm to unsure about the sites :/

Something like this? <http://cs.money/>

Doesn't give you credit on the site, but if you're trying to change or get whatever you can use this for that.

e.g your knife for some skins, find the skins on the bots there and put them in the trade

Silver Fang - September 23, 2016, 9:50 am

Thanks for the replies, i will take a look at the sites and closing this thread now.
