Top User Statistics Compilation - 2016

So recently i've been seeing some threads with new users wondering which members have the highest stats on this forum.

In this thread i've compiled several lists with who is currently in the top 10 of a specific member statistic.

Keep in mind that some of them are not entirely accurate as i excluded members with closed accounts on these lists, and some lists are harder to create then others.

If you want to visit the profile of a member in this thread, simply click on the image they are in.

Exactly why i made this. Like Nevieth said, most new members don't know the site very well, so this might be a help to them.

Gizmo - September 21, 2016, 11:26 am

I see that there is a 2012 member in the "oldest user" list :p

Nice thread, btw :)

It's because anything before 2012 just doesn't exist.

Whoops, that wasn't supposed to be in that list. Updated it to the right user.

Thanks so much for telling me!

And thanks, took a while to create, even though the first two lists were easy to find.

Also fun fact, the user Krave used to have the most awards, before he had them removed.

Keep up the good work. ?

IncarnatiOn - September 21, 2016, 11:38 am

This was pretty satisfying to scroll through, and I really appreciate that they're in spoilers.

What about making a list of the most duplicate awards? (like some people have multiple blackhats, bronies and such)

Also what about the most "reported posts"? And to see if they all got the guardian award.

I don't think there would be enough to make a duplicate awards list. Only a few users are allowed duplicate awards.

The most reported posts would be a good idea, but nearly impossible to accurately make a list for it. Maybe a top 10 HF protectors list?

add it either today or tomorrow!

Wow, this is somewhat intimidating as a new user. Still, thanks for taking the time to compile this.

How does the user "Omniscient" have zero rep even though he is the oldest user? You'd think the
oldest user would have at least something!

Nyx- should be on that list because he has high absolute rep

I have two you could possibly add

Top users with the most post in each section.

Top users with the highest thread replies in each section.

The first one would be impossible as there is no proper way to check that and there are way to many sections to do this.

I like the second idea though, i might add it!

EDIT: I will add new lists sometime this week.
