Thread: [How can I get a discount on genuine Apple lightning cables?](#)

FiftyTwo - September 21, 2016, 11:44 am

My current lightning cable has begun acting up after a year of use.

I guess it's time to buy a new one.

But I see the price went up to £19 now on the Apple website. :/

Any way I can get a discount on a 100% genuine Apple lightning cable?

70% on Amazon Gift cards? That's about it.

They don't sell genuine apple lightning cables on amazon, the only source would be Apple or Verified Apple Retailers.

Might get a bundle of 2 AmazonBasics MFi lightning cables.

Has a lot of great reviews.
