Synopsis

Quote:Saiki Kusuo has a wide array of superpowers at his command, including telepathy and telekinesis. This might sound awesome, but, in Kusuo's experience, superpowers are not all they're cracked up to be. He tries to live a normal life, despite his annoying abilities.

I was a bit hesitant to watch this at first, especially because each episode is only 5 minutes long, but I have found it to be a very funny anime so far. But if short episodes aren't your thing then you can watch compiled versions of every five episodes made into an 25 minute episode format. Good thing is that these 5 minute episodes come out rather fast.

The only thing I dislike so far is that the dialogue can be hard to keep up with because multiple characters talk at once, and the fact that the characters talk a lot.

I might consider watching this, seems like an interesting comedy so will keep a tab on it ;)
