Thread: [Ar1i`s PokemonGo Bot !NO BANS! UPDATED DAILY!](#)

sniperxyz1001 - September 22, 2016, 6:36 am

Sorry for spaces I do not have 50 posts yet

Ar1i`s PokemonGo Bot
[github/Ar1i/PokemonGo-Bot](#)

Discord

[/phu3GNN](#)

Features

Auto Farming Pokestops/Pokemon.
Transfer/Evolve Pokemons.
Simple Gui
Incubate Eggs
Pokemon Gui with stats of the Pokemon.
Livemap with Pokestop information on it.
Navigation Logic
Random Throws (Curved, nice..)
Real Animation waiting time
Open Source
Security
Google Routing
PowerUp/Evolve Pokemons in the Gui
Manage Items to hold
Archimedean spiral
and much more!

Credits

Most thanks to FeroxRev and AeonLucid, without them this wouldn't be possible.
FeroxRev - [github/FeroxRev/Pokemon-Go-Rocket-API](#)
AeonLucid - [github/AeonLucid](#)
MTK4355 - Doing a really really good job!
Cicklow - Mods! [github /NecronomiconCoding/NecroBot](#)

We appreciate every donation!

How to download

Step 1: Go to Builds-only

Step 2: Download current .rar file

Step 3: extract into a new folder

Step 4: Have Fun!

Sparkfear - *September 22, 2016, 9:47 am*

It's using the Rocket API tho, I have my doubts.
