Due to her family being extremely poor, money is everything to her. That's why she wants to step into the world of "Keijo." Unironically, Keijo is currently my favorite anime of the season. It has great fanservice that is completely in context with the stories, fun battles and characters I like. How serious the characters take stuff like "Titty Hypnosis" just makes it all the more hilarious.

P.S. What the hell is up with the quality of HS video? The lines are all jagged, especially around the mouths. Because of this I have to rip the subs from HS videos and load them into the raws.
