Do these servers allow spoofing?

**X GLOBAL X** - September 23, 2016, 9:54 am

The dedis do, yes however the VPS don't

**esoteric?** - September 23, 2016, 4:08 pm

Are you giving out any vouch copies?

**X GLOBAL X** - September 23, 2016, 4:09 pm

No I'm not sorry as I only have a limited amount of servers

**Swip3r** - September 23, 2016, 4:10 pm

Might want to add their port speed? 100Mbps I would assume?

**X GLOBAL X** - September 23, 2016, 4:14 pm

Updated the thread Swip3r.

Still selling servers guys :)

**PennTest** - September 24, 2016, 8:09 am

Read the thread again Surname.

**Swip3r** - September 24, 2016, 9:06 am

If you want I can review one of your servers for 24 hours to leave a vouch, literally won't even touch it I'll just download java and do some multi log ins on a RSPS I play.

I'll post pics of your servers stats etc, don't know if it'll help with sales but let me know.

**PennTest** - September 24, 2016, 9:16 am

Bought 3 servers from this user - Will review once I get them

Got servers quick - even throw an extra server

Testing spoofing and advertised port speed

-edit: awaiting 2 other servers as they were not given with root passwords - will review once I get everything and test them.

Ah nice, GLWS man.

**PennTest** - September 24, 2016, 10:26 am

Got 3 servers. 2 of the servers were given with root, others as subaccounts which i wont use - asked for root and awaiting (awaiting the other server).

Server 1: Had 512mb of RAM (not sure what happened here) - multiple users, i wont run my scripts on this.

Server 2: Seems to be the VPS of \$15 - multiple users as well, doesn't spoof (i asked him if it spoofs, he said yes)

I will wait for OP to sort this out, I am still pending 2 other servers though (maybe server 1 he gave it to me for free)

**Troja?Hors?** - September 24, 2016, 10:27 am

STILL WAITING FOR YOU TO MESSAGE ME BACK ON SKYPE AFTER YOU SAID THAT AFTER ME BUYING THE VPS YOU WOULD PUT WINDOWS ONTO IT WITHIN 2 HOURS. IT'S BEEN OVER 12+ NOW NOT HAPPY.

STOP READING THIS THREAD AND TRY REPLYING TO ONE OF MY MANY SKYPE MESSAGES.

**X GLOBAL X** - September 24, 2016, 10:32 am

These two users are friends and are trying to black mail me in order to give them dedi's. They can't provide proof of me scamming them and have made a fake skype of me. Please do not add live:flatheadjoe on skype as it is not me. I only deal in HF PMs.

**PennTest** - September 24, 2016, 10:32 am

Do not buy from this user. User just scammed me. Will make scam report within minutes and post it here.

**X GLOBAL X** - September 24, 2016, 10:33 am

Please include proof of it being me or you aren't going to get anywhere and I know you can't provide this evidence because I don't use Skype for this particular reason. Now please stop trying to black mail me, its obvious you two users are working together as you both replied to the thread at the same time.

A moderator can easily check the edits dude and they will. I know you are a young kid, but don't try to act smart here my dude. For what reason in the world would I blackmail you? investing 30 minutes of my time taking 30 screenshots and uploading them? why would I do that? I don't even know you. And here I will post the refutable proof that it is you <http://prntscr.com/clvyez>

Does scamming also make you feel smart you autistic fuck. Who even scams for \$13 anyways? Well I suppose you stole \$80 from that other guy as well. I bet your parents are proud of you.

Didn't you add him right after you asked for his skype? Shittiest way to scam and you aren't going through any effort to prove otherwise. You've scammed in my books but I'll let you guys sort the shit/keep on topic.

I'm also contemplating making a scam report but idk if there is a point. Gonna ring paypal tomorrow and try get it reversed. I don't care for the money it's just cunts like this guy piss me off.

ALSO @Surname: He recently did a BTC to PP exchange so that's most likely your BTC. I will contact the person he did an exchange with and see if he'll give me the email he send the PP to.

Maybe because I took the time to make all of this up lol. This guy is a Joke. Like I said, a moderator can check his thread and confirm the edits.

All we can see is that he edited the thread within minutes of the scam report. He had his skype account on the thread, now it isn't there.
