Thread: [Start your own crypter \(Crypter Source\)](#)

Stixio - September 23, 2016, 10:43 am

Hello there.

I've been interested in starting up a crypter, but somehow, all my partners were unavailable. Therefor i won't be available to do it, as I am not a coder, and cannot maintain those products.

Lanuage its coded in: VB.NET 2

So that's why I'm here, selling it.
This source, will ONLY be sold to ONE person.

What you get

[] Ownership of the whole source, raw, and bin.
[] Unique and HQ Thread design (.PSD) - Create by SIIMAS

I'm afraid I can't help with that buddy.

I'd love to run this service myself, If I could find someone that could maintain it.

You can easily get a Coder,

But you just need to know he will take almost 70% to 80% from the sales, And mostly Coders work on there own terms.
