Why is there only 0-2 people in quene for Facelt 5v5 Premium for the US region? Is this normal?

Because nobody plays FACEIT

Try something better like CEVO

CEVO is too easy. Facelt is more challenging with pvs_min_player_distance set low.

I never have trouble finding a game on Faceit. I get queue dodged every other game though so it ends up taking me half an hour to get into a game.
