Thread: [Groups for new members?](#)

**Debit.** - September 25, 2016, 12:52 pm

Are there any groups I would get accepted into? Sorry if these threads aren't allowed.

Just post an application in the recruit threads and wait for reply.

Also , search for a group that you want to get in , group that interest you.

Apply to Synergy for Gaming and "the underworld" (nightmare) for marketing :)

Look at recruitment threads and apply to those you qualify for.

Just apply. If you can offer something to a group then apply. If you got nothing to offer yet, find something.

Feel free to apply for Synergy - as long as you're an active member and avid gamer (and put some effort in your application) we'll probably accept you:
