Thread: [Help with Money Making ebooks](#)

I've purchased 3 highly vouched and reviewed money making ebooks on Hack forums now without any return on investment. Maybe I'm not patient or experienced enough? Anyone able to give me some support?

I advise you PM the sellers of the eBooks for support.

Don't buy ebooks lol. Its all a scam.

Do NOT buy ebooks on here. They're all scams with not working methods

Nearly all of them are scams with fake vouches from their friends.

In the past 2 weeks I've spent atleast \$60 on ebooks without any return. I wanted to gain, not lose.

If you want to really earn money, make a Shopify store and invest in FB Ads. :)

More investment, after losing \$60 already. I just really need a solid method if possible. Even if I just get my \$60 back I'd be happy.
