Can I get a vouch copy?

I have been in the field for a while, and would like to see if this E-book is like the rest of them.

I will leave a honest review on this thread as well, please get back in contact with me as soon as possible.

Edit: Bought this e-book for \$2.50 to see what it was about, and it is pretty much all public information. This can easily be obtained through searching, but if you're lazy then go for it I guess.

3/10.

So it wasn't worth the money if you're already a little bit experienced?

Bought the ebook for \$5, quite honestly worth \$1-2 at the most. All of it is easily accessible public information. PM'd about a refund.

HUGE vouch for Akhenaten. He knows his shit when it comes to doxing. Normally doxing e-books go for \$25+ and this is only \$5! I suggest you raise the price bro.

Either way good luck with sales!
