I just found this channel from a post on Reddit and it basically just plays 24/7 OP's from Anime shows :) It has a pretty big Japanese Chinese (thanks [Gladly](#)) following by the looks of the comments so yeah - here you go my lovelies <3

EDIT: Okay so they seem to delete the previous video and start the stream again every now and then. So here is just the channel :)

Sorry, I will update the post. I see that they delete their previous video when they start a new stream.

Thanks cutie for the share, an autoplaylist on a discord server would also work if we want a HF centralized one.

Think you mean Chinese. Channel is in Chinese, and so are most of the comments.

You are right indeed my good sir, I didn't pay much attention to the characters as I took a quick glance at them and I was relating it to anime so I just assumed Japanese.

I am sorry if I offended anyone, I will fix my post :)
