Thread: [Elfen Lied](#)

Livewire - September 26, 2016, 7:39 pm

I just finished the anime recently. I split it into two binge sessions, and I was actually disappointed. I'm not sure why, but the anime didn't seem to draw me in enough to evoke an emotional reaction from me.

I've seen countless reviews where the poster was brought to tears during certain parts of the anime.... but I just couldn't get emotionally involved. I'm no stranger to tear-jerker animes either; I absolutely loved Angel Beats, and Clannad.

All-in-all, I did enjoy the anime. It just didn't resonate with me on a deep level at all.

I really liked the anime and there wasn't any significant emotion like Erased, but it did have c:

IMO it was really good.

It just seemed to lack a real connection.

It was on my list of animes I HAD to watch.
It doesn't rank too high for me though.

Angel beats (sad)
Erased (sad)
Death Note (psychological thriller)
Tokyo Ghoul (action-y)
Steins;gate (thriller)

A few of my favorites, anyways.

Probably didnt generate an emotional reaction from you because you fucking watched it all in 2 sessions

Death note is good for beginners.

I more-so needed closure on angel beats than any other anime.

Usually 12 episodes is one session. It keeps everything fresh in my mind.

When I watch anime I generally watch from 6-12 episodes per sitting.
The most I've watched in a row is 24.

Mirai Nikki ending just didn't fit so well for me; however, Steins;gate is probably the anime I looked into the most for alternative endings.

Then you're not doing it right. I finished 2 seasons of Nisekoi and Code Geass in one sitting.

Anna-senpai - September 26, 2016, 9:07 pm

Yeah I tend to binge-watch anime too, which is why I don't like following summer anime until after it's fully released

?Adroit - September 26, 2016, 10:11 pm

I would recommend reading the manga since the anime is very different from the manga

Spoil me.

Whats the difference?

Mafty Navue Erin - September 26, 2016, 11:43 pm

I might actually re-watch Elfen Lied. It has actually been a long time, and that is on my re-watch list. The first time I was not very emotionally invested, I might feel differently now.

Manga will always contain more details than anime. Manga also tends to show zero censorship that anime often times cover-up.

SIM-3022874 - September 27, 2016, 8:30 am

Elfen lied is a pretty good anime to begin with, the characters were well explained and we understood the whole dilemma but the only thing i didn't understand was Spoiler ([Click to View](#))the one who was standing at the front door.(in the last episode (at the end of the episode))
