Bypass Paypal error Message

Sorry but your payment could not be processed at this time. Please return to merchant..

Keep getting this??

Not got a clue why??

Follow this guide and things will be better!

Step 1

Clean you PC.

Download CC Cleaner and make sure you wipe all the cache and cookies from your machine inc FLASH.

Wipe Free space / temp files

Step 2

Download User Agent switcher for Firefox

Link below

<https://addons.mozilla.org/en-US/firefox/addon/user-agent-switcher/>

or google it

Download and install

Step 3

Open CMD and type

Ipconfig /release

Ipconfig /renew

Ipconfig /flushdns

To clear you ip and DNS cache

step 4

Open Firefox and in Tools you should now see a tab called Default User Agent

Open the tap and select iphone 3.0 as the user agent

Step 5

Find a CLEAN and LOCAL Socks5 Not HTTP, Not Socks4 MUST BE 5 and MUST be clean. Make sure and check if the Socks is blacklisted

Step 6

Now log into the paypal you wish to use from paypal.com
and KEEP IT OPEN in a new tab
then Buy what you want.
Click checkout and you should Bypass any errors

If you still get this error I recommend Spoofing your MAC address

Hope this helps.

or can use paypal app and skip all of this

Prophett - September 27, 2016, 12:04 pm

or you can wait a couple of days and it will work

MafiaPHP - September 27, 2016, 12:04 pm

@OP: Sometimes the account may be under review and until it's verified by a PayPal stuff you cannot or send message or make any paypal buttons, basically you cannot do anything, you can see this is their policy if you do a google search.

are you retarded? a web page doesnt even have access to this information unless you have some plugin or using Internet Explorer with ActiveX enabled

Paypal does not do any of that so they don't have access to it lol ...
