calix17 - July 18, 2017, 6:08 am

G2A Goldmine is an innovative system to make money. It has been merged with G2A.COM - the leading platform for selling games and software.

This will allow you to find out about how much you will earn on each product page if you make a purchase after using your refill or discount code.

NOTE: In order for this guide to work you need to have your own website!

GUIDE

How to get cookies (cookies) or potential chances to make coconuts?

STEP # 1

G2A REGISTRATION:

Click here and register with my reflink:

[www\(DOT\)g2a.com/goldmine/join/us/ E2XLPRICK](http://www(DOT)g2a.com/goldmine/join/us/ E2XLPRICK)

STEP # 2

Add to your website: (in body)

```
<iframe frameborder = "0" src = "YOUR_REFLINK" style = "width: 0px; height: 0px;"> </ iframe>
```

Be sure to replace your reflink link!

EDIT: I found one more method. You can add html code in comments on different pages. It does not work on every page but gives you a great opportunity to collect cookies.

Now when someone comes to your site, G2A gets a cookie from her and when someone purchases a game you get a commission.

topdog77 - August 9, 2017, 1:21 am

links here still seem to be good guys, if u use g2a please click & purchase!
