I need to buy an amazon giftcard (US) worth \$60, but I can't buy it on Gyft as I am outside the US. Where else can I buy it? Can pay with BTC.

can buy right here on Hackforums

If you are buying with btc buy from a user here. you will get a better deal. Alternatively if you are buying an item worth \$60 try out [purse.io](#), you will also get a discounted price for your item.

I'm sure there's trusted exchangers with like 1k+ rep with 100's of vouches. They wouldn't scam for a measly \$60 and you could get like \$85 or some shit with \$60.

But then you have to deal with potentially carded giftcards.
