Thread: [Kiseijuu: Sei no Kakuritsu \(Parasyte\) \(Spoilers\)](#)

BR?ND?N - September 27, 2016, 8:59 pm

One of the absolute best fucking animes I have ever seen, in my life. Period.

Spoiler ([Click to View](#))The story was fucking awesome. The way it made you think, the character progression (awesome by the way), how the parasytes almost became human towards the end.

I was sad when Kana (i'm assuming how her name was spelled) died. I knew it was going to happen though. I have seen that episode on Toonami so I knew. However his mother's death was COMPLETELY unexpected and really fucked with me.

Murano, I felt like she was gonna get killed the whole series. So at the very end when she fell of the edge I was like "WHAT THE FUCK NO!!!"

Then to see that miagi was able to help save her. Man. That whole series was more psychological than I expected. Most animes lack that, and Parasyte had it. I love animes that get in your head, another great example of a Psychological anime is Death Note. I loved this one. I loved this anime. I can say i'm generally happy I watched it.

RECOMMENDED, 10/10

Spoiler ([Click to View](#))It was good, but far from the best. Just keep watching animu.

Parasyte was pretty good, but I lost the feeling of hyping it toward the end. I ended up dropping it for a while after that.

Well that was when it was first airing. I finished it not long after it finished airing though. Also watched it on Toonami.

Btw your OP contains spoilers so you should probably put a [spoiler] tag on them.

Agreed. The concept and story was done perfect.

I've watched so many animes where it seemed to be dragged out. When the story could have ended a lot sooner but they pushed to drag it out. Parasyte kept it interesting while at the same time developing characters and story. It is a great example of how an anime should be done.

Was too lazy to keep scrolling and try to find an actual discussion thread about this anime, BUT I JUST FINISHED IT AND IT'S ONE OF THE BEST ANIME I'VE EVER SEEN.

Spoiler [\(Click to View\)](#)It had literally everything I look for in anime, and the added bonus of the main couple actually being a fucking couple and doing couple shit. Especially when they have sex, since most anime don't go that far.

Was a pretty nice watch back when I saw it.
