Thread: [How to be accepted into groups?](#)

Xerxes. - September 28, 2016, 7:01 am

How would I go abouts of applying for groups, I'm new to HF groups and have no clue how this works.

My skills, programming in VB, C++,C#, Python 3.5, webdesign, SEO

Online 15+ hours a day and ready to bring some good vibes to a group, let me know how its done or if anyone is interested in having me.

I promise I will make your group look great!

Tried to apply via usercp and this is what I got, what did i do wrong? Very confused on groups sorry guys!!

The Supreme Leader - September 28, 2016, 7:01 am

Go to the groups application threads and apply?

Don't know what else to tell you unless you buy into one

?ersace - September 28, 2016, 7:03 am

Accepted to The Order, please send 100€ to: end27336722828 to get in!

In?sane? - September 28, 2016, 7:16 am

Check all the open group application threads and see if it's something for you, if it is then just apply using the form or whatever method is stated in the thread.

Prophett - September 28, 2016, 7:17 am

Fill in applications on recruitment threads.

Danny Khalifa - September 28, 2016, 7:18 am

Just check the open group application, apply and wait :D

To be honest, none of the current groups has the focus that you might be interested in.

Most of the groups has no purpose except to have fancy graphics on the forum and a private lounge to chat in.

I recommend applying via UserCP for the highest success rate!

Lufasu - September 28, 2016, 8:04 am

Search for a group that interesting you and just check if the group has open recruitment and try your luck.

Krave - September 28, 2016, 8:21 am

Sift - September 28, 2016, 3:13 pm

Honestly avoid The Order, Royalty and Echo.....

Grim - September 28, 2016, 3:17 pm

Why do you need to be in a group? just use all your skills to help out other people around the forum. Honestly i feel like most groups are just an extra lounge.

minimalist - September 28, 2016, 3:20 pm

Suck dick, promise to post meaningless spam just to get through 5 group lounges per day, type up an essay explaining why they should have you, and you should be good.

Can't say I vouch for this user dwc.

Premortal - September 28, 2016, 6:27 pm

Honestly? It's mainly about evaluating yourself and deciding whether or not you see yourself as a good fit for the group. From there it's all about communicating to the leadership, be it through your actions or an application or even just a discussion, how/why you're a good fit for the group. If there's a group that looks cool but you don't necessarily see yourself fitting in very well with then I'd say it's not worth it to pursue membership.

l33ts can't be accepted into groups ?

thanks for your response. I'm completely new to groups so I'm very confused on how this all works.

?ersace - September 29, 2016, 10:30 am

Look at my profile, I am a L33T, I am in groups as well. L33T's can only apply trough CP though, to prevent LQ spams on a recruitment thread.

J?son - September 29, 2016, 10:31 am

Apply via UserCP and get accepted instantly.

No, i meant the reason you were negged. On a serious note, you should look at group recruitment thread(s) and apply.
