Thread: [Mony-OFFICE EXPLOIT BUILDER | FUD | Excel/Word Exploit | JAR/EXE to DOC/XLS | FUD Cr](#)

jambogini - September 29, 2016, 3:16 pm

Hello bro, i have made payment and sent you an email with my uid and serial no, please i cannot reply on your thread today i don't know what happened. Please send me the doc exploit
Thank you

Faith Connors - September 29, 2016, 3:41 pm

Wrong section to post this. Just get a few posts more so you can PM and shoot him a message, unlikely he'll see it here.

jambogini - September 30, 2016, 1:15 am

@Faith Connor, please can you help me to copy my message to his forum because he don't reply my email and i dont know what else to do.

Can anyone inform mon3y that i have sent him payment for doc exploit and generated a serial number and uid.

I will appreciate your help

jambogini - October 4, 2016, 1:32 am

Thank you so much @ Mon£y i have received the doc exploit builder, you are the best

Although i can't reply on your thread that was why i opened this thread. Once again thank you and i appreciate.

5star for you bro

somejohndue - October 4, 2016, 2:15 am

Why are people buying public cookie-cutter CVEs? Is using msfconsole so difficult?

Sorry, I'll shut up.

Tony82 - July 4, 2017, 3:33 pm

I'm waiting for the new version

sirspendalot - July 21, 2017, 9:17 pm

Don't wait for anything.... Mon3y's exploit is not good enough yet. His silent add-on is just a VBS script, no one is stupid enough to download and run VBS Script. And cherry on top email service providers like AOL and others clearly mark your VBS script as Virus.
