Thread: [Fastest typist on HF? Typing competition and leaderboard of HF's Fastest Typists!](#)

ketamin - September 30, 2016, 3:07 am

So, I've been seeing a lot of these threads but none of them have a "leaderboard", and the one that did the OP stopped updating it after a couple days. I want to find the fastest typists on HF to see if there's anyone who can beat me in a typing competition. The fastest non-cheating typist I've found on the forums typed 166 WPM but non-consistently and couldn't beat his score again.

10FastFingers Typing Competition here:

Please only post in the thread if you can type over 120 WPM on 10FastFingers

If you want to be on the leaderboard then you must have an active 10FastFingers account where you've done the cheating test confirmation bullshit, or have a video of you recording your hands while typing like I've done on my score on the leaderboard below.
