Thread: [qBot - Bots don't connect.](#)

Avention - September 30, 2016, 6:58 am

Hello HF Community,

At first, i know that qBot is just for skids like the people who make DDoS Services in the SST Section with it but due the fact that im curious about bots and so on i wanted to setup the first time in my life qBot to see why many of them use this shit.

Anyways, i've a problem with it. The bots do not connect to my CNC Server, idk why. Maybe you know the solution.

i can help u on skype: simoxfx

-LSZ - September 30, 2016, 9:19 am

did you set the wget line correct?

J?son - September 30, 2016, 9:46 am

Have you tried turning it off and back on again?

DelziumTheProudWhale_temp - September 30, 2016, 10:16 am

here's your problem <https://i.imgur.com/hpSYLoQ.png>

cls_ - September 30, 2016, 10:21 am

I do not understand how one can achieve such a thing.

libc - September 30, 2016, 10:24 am

I believe you have been infected with Stuxnet

DumGraphix - September 30, 2016, 12:10 pm

dude your kaiten.c is broke

add me on skype: cheapish

Torlus - September 30, 2016, 12:21 pm

It's because I'm broken..

I still need help. All the people who resetuped qBot didn't work. The bots didn't connect.

Edit: Fixed it myself.
