Thread: [Black Shadow's Bustabit Discussion Thread 'Was it a troll or the truth'](#)

Black Shadow - September 30, 2016, 9:25 pm

I am going to tell you the answer tomorrow night ?

Hey guys I have waited for this moment for a while, to open a discussion thread about bustabit and your thoughts on it and my involvement in it.

I have had a hard job in the last 6 months trying to convince you all that you can make a living off bustabit thats why I have spent months playing the game to work out a good sequence and when to put on your bets so you have the best chance of beating the odds.

I had so much negativity from the forum, lots of haters and also lots that cared for me and others who believed in me.

I tried to sell the script that I first made but I got laughed at and made feel an idiot. But feel an idiot I didnt I felt compelled to carry on my bustabit venture to the very end no matter what, no matter what members were saying. There are loads of threads I have made and other members made too about me, mostly bad, I will list them just below.

I finally discovered the final part to my method only the other day and was about to sell it on here. But then I realized I would have been stupid to sell it after months of work... for what \$100 a time? now if you offered me 10k for the method I wouldn't sell.

List of bustabit threads

This is the one that I made when I attempted to get all my accounts positive and I did.

"The BlackShadow" account is only negative due to me testing "It will be postive after the weekend"

[My bustabit challenge starts right now](#)

When I tried to sell the method a few months back and was accused of selling a public script " The script was not public it was my own and I made it"

[BlackShadow - IS NOT TRYING TO SELL ANY PUBLIC SCRIPT](#)

Now about the poll

Can you please put in your appropriate answer being honest.

There is 3 choices

1. Is this just a troll?
2. Am I being truthful?
3. Am I delusional?

Ninetales. - September 30, 2016, 9:26 pm

3. Am I delusional?

Gonna have to go with this option.

Busabit can suck my dick. I put in \$100 and lost it in 30 seconds. Prob cause I did 50k a round, but still

Silent Uprising - September 30, 2016, 9:29 pm

I have nothing against you. I don't gamble BTC. But from what the community says about you and your involvement in making scrips seems like a joke. To me I feel like people view you as a meme. Like a joke. They say your methods are public and stuff...I am giving you my point of view from someone who just reads posts. I am in no way trying to call you out since I have never used your scripts, but that's just what you look like to the average lurker.

Edit: Wait are we talking about your methods or? Lol, my bad if we are not.

Black Shadow, you're a delusional idiot with a crippling addiction. You've literally had hundreds of members try to convince you to get the help you desperately need and you blow every one of them off.

You deserve to be broke and lose everything you have, and when you do, I'll be here laughing my ass off.

I don't know what any of this is about. But I do think you should take whatever money you make, set 90% of it aside. Rinse & repeat from the 10% you've invested back. If you lose the 10%, take only 5% back into it from the 90% (now you'll be down 15%). If you don't make back the 15% plus profit, it's not worth it.

Just my 2 pence. Basically don't spend what you can't afford to lose.
