Thread: [Custom IP Pinger](#)

oTrxpzModdz - September 30, 2016, 10:12 pm

Hello HF Members, This is my first thread so if It Kinda Sucks I'm Sorry, But Today I will be bringing to you a Custom IP Pinger, just like when you ping in Cmd.

If you wish to edit them its best to use Notepad++. To Cut Down on the Leechers You have to Pm me for the files. I will leave Everything you need to know about editing these in the Folder as well.

I would Leave Virus Scans and Images But I need 50 Post Points Rip. Please Leave Credit or Either Feedback On Here.

Enjoy ???

Bibbly - September 30, 2016, 10:14 pm

broooooooooooooooooooooooooooooooooooooooooooooooooooooooooooooooooooooo lemme get this totes bro

Sorry dude but a custom pinging tool shouldn't exclusively require a PM. You should show your program and ask for opinions on one of your first (presumably) c++ applications
