Thread: [\\$5 Money Making Method | All you need is a BRAIN and some CREATIVITY |](#)

Lansanity - October 1, 2016, 10:06 am

Hello HF,

I am presenting you with a cheap and easy money making method only requiring a brain and creativity. This method is based on solving real-world problems. The more intellectual, creative and persistent you are the more the payout will be. All you need to do is put in the time and effort into this if you are wanting to earn.

From what I know, I have not seen this method anywhere, and it will be working for a very long time. On the recent problems, there have been atleast 20 submissions each and there has been multiple winners to each problem. The winners are most likely people who put in the time and are creative with their answers in solving real-world problems. The problems vary throughout this method, there's business ,food, science, engineering, computer science, math, etc. The rewards for providing a great idea/answer to the problem vary from \$20-\$200.

Do not expect a \$1000 dollars right off the bat, it takes a period of time and effort to be able to earn much more, but if you do put in time and effort the results will show.

I am offering one vouch copy to a VERY reputable member here on HF.

Willing to sell this method for \$2 to reputable members.

I am interested in this.

Kind regards.
