I just went through making my gif fit the requirements and I still get this error :(what am I doing wrong?

deject - October 1, 2016, 10:08 am

file size could be too big.

dendro - October 1, 2016, 10:10 am

Its not.. literally just said it fits the requirements.

What's the image link?

And make sure it's a direct image link and not an imgur page like in your signature now.

Says it's 483.6kb and 650x200 pixels on my laptop.

OHHHHHHH I think I had this same issue changing my avatar. One second

Nope still getting the error even with a direct link
