A couple of the methods are whitehat, and a couple are greyhat, I would not consider any blackhat!

Not really buddy, maybe slightly immoral/unethical, but I wouldn't really call it all out blackhat.

Cheese - October 10, 2016, 7:17 pm

Bought this awhile ago, great methods my man!

problems.x - October 12, 2016, 1:42 am

Thanks for purchasing consult! Enjoy getting mad skins ;)

Yardstick - October 12, 2016, 10:45 am

I purchased this.

Don't know what I expected from an HF method but these methods either require a lot of time or are just luck-based.

Not guaranteed and definitely not going to get you your "dream skins" lmao.

problems.x - October 12, 2016, 4:15 pm

I offered to help you, its fine I retract that offer. If you are too incompetent to learn how to make skins fast, then you don't deserve to have these methods. I bet everything was given to you as a kid, but its alright, my buyers have had success so far, so your comment/review doesn't mean shit buddy. I wish you the best of luck with your future endeavors.

And as for the eBook, there may be a update or add-on method coming soon! I just need opinions considering this is blackhat. Although, I'm online now and on for support.

Imfao kid is dissing one of the few HQ legit methods sold in an ebook on HF... funny... why don't you go roast a shit ebook instead...plenty of options out there ya know.
