We already have a TinyChat room mate, although it's been pretty dead for a while, but everyone who uses TC already knows about it so we may as well stick to that one.

It's <http://tinychat.com/themanhole>

I was just thinking earlier how no one uses tinychat anymore & that'd it would be cool to get one started again. I'll probably sit in the above one whenever I'm bored and browsing HF

Most of us now just go in a random room on weekends finding one that isn't half bad to stay in. Last weekend we were in <http://tinychat.com/respect2live>, although I don't know if that will be a regular thing.

Also Lovat, we better be going out for a drink or ten soon. ;)
