This kiddo right here -> <https://hackforums.net/member.php?action=profile&uid=3281850>

I did just have a brief chat with him. He was extremely unprofessional, I figured he doesn't really know what he was doing. He asked me for proof that I know my shit about e-commerce. To the point, this goofball didn't even bother making a new Skype.

Skype posted on current account: <https://hackforums.net/showthread.php?tid=5422571>

Skype posted on old (multiple) account:

I cannot post in the marketplace as I have no reputation yet, so I posted it here (whoever is able to, feel free to move it)

Proud of you detective L33T.

Riyu - October 2, 2016, 4:28 pm

Pm a staff member and they will handle it

N??n - October 2, 2016, 4:29 pm

Nice find. Good looking out for HF members.

sweatpants - October 2, 2016, 4:29 pm

yup there you go man

Danny Khalifa - October 2, 2016, 4:29 pm

Nice catch buddy

PM the staff.

Woocommerce - October 2, 2016, 4:32 pm

Thanks for the replies guys, but how do I know who is on staff?

Okay, I messaged staff. Is there a need for people to post or can I click "close". And staff can see this thread after I close it right?

yup there you go manThanks for proving my point. I am not a multi and everything there looks completely fine. Reason for 2 IP's is cause 1 is home IP and one is my cellular on mobile. I am not a multi

You can click close. Anyone can read a thread after it's been closed, if need be, a staff member can reopen it.

This guy is mad af because I didn't deal with him. He replied to my e commerce thread and I didn't want to deal with him because he had no prior experience at all so I said no and he started crying.

Gotcha. I'll go ahead and lock it so that an argument doesn't spark (I see the multi-accounter has posted)
