I tested this and it works 100% PM or comment if you need help?

Android:

- 1.Go to the Google Play Store
- 2.Search for Text Free
- 3.Register
- 4.Enter an area code
- 5.Select a number
- 6.Complete registration
- 7.Confirm your registration
- 8.Get 60Mins free talktime from that number
- 9.You can now use this number to receive sms/calls
- 10.Use this number to complete phone number verification.

Iphone:

- 1.Open Appstore
- 2.Search for Text Free
- 3.Register yourself
- 4.Enter an area code
- 5.Select a number
- 6.Complete registration
- 7.Confirm your registration
- 8.Get 60Mins free talktime from that number
- 9.You can now use this number to receive sms/calls
- 10.Use this number to complete phone number verification.

Bluestacks:

- 1.Open Google Play Store
- 2.Search for Text Free
- 3.Register yourself
- 4.Enter an area code
- 5.Select a number
- 6.Complete registration
- 7.Confirm your registration
- 8.Get 60Mins free talktime from that number
- 9.You can now use this number to receive sms/calls
- 10.Use this number to complete phone number verification.

If forever reason it dont work use whatsapp account/viber/hike/

Everyone knows about text free.. And honestly it's shit for verification, and you know it.. GARBAGE
There are far better apps for that.

I'm just curious what the other apps are? Specically ones that allow calls. Twitter requires me to leave a number so they can call to reactivate one of my junk twitter accounts.

Thank you for this, I hate putting my phone number in most sites due to being paranoid about it.
i will most definitely use this app.
Thank you again.

Another good app is Talk2, but first you have to verify it with your own number. Then you get a filipino number that you can use to verify for other social media.
