I usually go with Almost.

Personally I like goodwood a lot. Zero has a lot of pop and concave. Enjois are really nice as well, but they flatten quickly. Deathwish has good pop and concave.

It just depends on what you're looking for.

Grab a Quasi Deck or a Polar.

My favorite skateboard decks are from "Enuff"

Go with Creature or Welcome. They have the best decks by far. Almost has really strong decks, but I'm a hard skater and I've never broken a Creature or Welcome.

I don't skate anymore but Enjoi was my favorite brand.
