Thread: [FREE SatoshiMines Method - Proof provided - Reopen giveaway.](#)

SHOLLEX - October 5, 2016, 5:50 pm

Okay this time I'm giving away a selfmade custom Satoshimines method.

In this guide I'll be using public source bot, I repeat I do not own this bot and its public source. All rights goes to this thread : [FREE SatoshiMines Bot](#)

In this giveaway I'll be providing my own new method that I recently came through.

Proof :

Requirments (investment-tips):

You will need around 3-6\$ to start off. = 4600-9000points. Just to be able to recover and rise it to 30-60k what is equal to 30-40\$.

(It's always good to invest more - more you invest more you get eventually - bigger bets and wins aswel.)

This method so far brought me more money than any other I have tried so far.

Note : This is gambling so dont expect to win everytime but I can confirm this method works in 8/10 cases. Just dont be greedy if you get from 3k - 30k cash it out come back tomorrow. Making money from 3\$ - 30\$ is more than good for gambling and I suggest you to cash it out as soon as you hit your daily goal.

Happy gambling and [PM me](#) for more info about full custom settings for this amazing bot and method!

Only Upgraded members as this could be easily material for sale.

This is a fine method!

However, you cant win enough with 6usd. To minimize your risk, you should play with 19usd at least.

Thats not true, you can win around 30-40\$ starting of with 6\$ but yeh ur right u have bigger chances of winning if you put more investment as I mention in thread:)

Glad you did, just cash out or take a break after you hit your daily goal, mine is about 30-40k bits - otherwise It might eat up all your bits it doesnt let you win all the time and you should listen to me about this :)

Happy gambling !

211steel - October 8, 2016, 3:04 pm

Yea don't get greedy. I got up to 90k and now I'm down to 7k. lol

211steel - October 8, 2016, 3:43 pm
