Thread: [USB Device Killer 2.0 -- KILL ANY DEVICE WITH USB!](#)

ThatCoderX - October 5, 2016, 6:40 pm

The successor of the USB killer : USB Killer 2.0

Kills any and all tech with a USB capability without surge protection (Everything but Apple and very high end/non-consumer grade items)

Found at <https://www.usbkill.com/>

(I'm an idiot that doesn't know how to center images so ;)

Random Arab Girl - October 6, 2016, 3:55 am

Wanna send a vouch copy hehehe xD <3

JealousSkidIsUgly - October 6, 2016, 9:21 am

is it usefull?

it look like useless just crush the usb its the same thing..

Are you.... Are you retarded?

WarpBrothers - October 6, 2016, 10:13 am

I'm guessing you have to buy the USB. Where can I buy? :)

It does not kill the USB, it kills device you connect it to... Imagine you want to take revenge on someone for a reason... Just plug your wicked USB on their computer and it's dead.

JealousSkidIsUgly - October 6, 2016, 11:32 am

USB on their computer and it's dead.
oh ok so its good
?

edit: o oh i understand now, its really fucked? power supply is fucked? because the tutorial is unclear

Reporter - October 6, 2016, 11:33 am

It also works for mobile phones

<https://www.usbkill.com/> is the official site.

I'm sure you can buy it from numerous other places though.

<https://hackforums.net/showthread.php?tid=5401283>

Interesting piece of technology for sure.

Appygo - October 7, 2016, 11:41 pm

I don't understand! It's kill usb or any device using USB?

Which device you've killed?

Kaleb - October 7, 2016, 11:47 pm

Which device you've killed?

Whatever device it's plugged into.

xscatta - October 10, 2016, 8:03 am

heh looks pretty funny to do
