Thread: [Best Payment methods for ewhore \(Beginner\)](#)

Silent_Camper - October 6, 2016, 1:14 pm

I was looking into getting started in ewhoring but want an idea of what methods of pay work best.

Nytrix - October 6, 2016, 1:15 pm

Amazon gift card hands down. Paypal can be charged back and BTC is uncommon to pervs.

Thanks for the Help! just needed an idea of what i should accept.

If you have your own bank account, use giftrocket, you can get a gift card sent to you, and send the giftcard funds straight to your bank account. Giving your ewhore a fake name and email with no hassle. And they have no limits just a service fee.

You can accept any type of gift card. Amazon gift cards, paysafe cards, iTunes cards, etc. AGC's are the best since there is a lot of people that buy them.

You could also accept something like Western Union if you have a girl willing to help you with identification.

Just think about the payment method. If they can't identify you and it's hard to do a chargeback it's probably a payment method you can accept.

Like PayPal won't take action against the account with negative balance and doesn't notice where the money has gone ???

Amazon Gift Cards hand down, very anonymous. Other than that, Bitcoin.

I been using paypal for years,

I use my EW email , then transfer that into my other paypal then into my bank account...no problem lol

Also, dont use giftrocket, as thats ONLY FOR USA.

Yes they are :) i always get them to send it as family and friends and i always make sure, they dont write anything regarding ewhoring...and if they do, it must just say " gift for you" . Nothing that gives it away otherwise, paypal may close your account. ?
