Anyone know how to get inactive instagram usernames?

Ambien - October 6, 2016, 1:59 pm

You have to jack them or pay someone too.

Did you really spend time typing that ?

Baked Moses - October 8, 2016, 11:47 am

I think its really hard to jack accounts now, I remember it was easier in like 2011.

nutsaholic - October 8, 2016, 11:55 am

How would u go about jacking it tho

Sylver12 - October 8, 2016, 12:28 pm

Oh you can just message instagram and ask them for help man!! Hope this helps!!

KLNV - October 8, 2016, 12:30 pm

the one effective way to jack instagram accounts was by using the photo id method but it got patched like a week ago.

u would email support saying u got hacked and they ask u to hold up a piece of paper saying

something on it so u would just photoshop a selfie of whoever owned the account and then u would jack it ez pz

Damn patched a week ago, I wish I knew bout it sooner, any other ways my dude?

Gachi - October 8, 2016, 12:47 pm

It got fixed around 3 weeks ago, not 1 lol. No one is going to tell you any method of how to jack anything, if you want to learn you better have around 1k to pay someone.

You bought a method for jacking?

?ictor? - October 8, 2016, 1:28 pm

The only way is to jack it tbh. Turbo won't work because it's completely inactive. Jacking it with business name I'm guessing is what all the people here are suggesting you to do.

If you want to learn how to get inactive names you're going to have to pay someone who knows around 1k like I said.

Turbos autocclaim the username, so when someone tries to swap it to a new account they get the name.

Are there any free turbos? Or only paid ones

Prophett - October 8, 2016, 3:15 pm

There are no public methods. I'm sure if there are any they will not be released, or sold even.

nutsaholic - October 8, 2016, 3:22 pm

Well are there any free account jackers? Medd

Or nah I guess, if anyone can link me to a good turbo hmu
