I think that app idea is very cool and you should do it.

That feel when you can't beat a clowns ass in person, so you want someone to make an app that lets you do it virtually instead.

Sounds great, goodluck with this.

I like this, here's a small loan of 1 million dollars to make it happen.

LMAO the clown thing is annoying AF.

Well I mean this is a funny joke but not a really good idea.

Now this is the quality I'd like to see on the app store. You could make a cool mill from this, no need for that loan.
