Just out of curiosity, are you using any hacks/cheats to level faster, like godmode, or any rate mods?

Sounds like a p good service, might take you up on it sometime.

I dont use hacks on games .

I just have an really good items that will give me at level 60-80 a LOT of damage and thats why i can level faster and faster.

i have all the items expect nightlord / nightwalker as i said :) .

ofc i'll take them back when i finish because its like 60\$ value :)
