Thread: [\[Selling\] Gear Sets on DayZ Standalone \[Public Servers\]](#)

Shoelaces - October 8, 2016, 3:55 pm

I will be selling gear sets on DayZ Standalone Public Servers.

How it works for now. You post below what gear you want and I will get it for you and meet you at Cherno on whatever server you want (public) and drop you the gear. If this service gets enough customers I will change how this works but that's how it will be for now.

Prices: (Keep in mind each "set" is whatever you want)

Accepting Paypal (trusted users) and BTC/CS:GO Skins (all)

1 gear set= \$1

5 gear sets = \$3

Unlimited (monthly) \$15

Custom packages available just ask

More packages to come if popular enough

NOTE: You do not have to use all of your purchased gear sets at once and you can purchase for friends as well. Example: You purchase 5 gear sets for \$3 and you use one but you have 3 friends that want gear to so you used 4 of your 5 gear sets and have one remaining.

Side Note: Although you do not need to redeem all sets at once they should be done in a fairly responsible time. Example: You purchase 5 gear sets for \$3 and use 2 today and then 1 month from now you want to use more wont be tolerated. You MUST redeem them in a reasonable time....

ToS:

1. No chargebacks

2. Refunds will only be given if I deem them necessary Subject to change

Giving away 1 vouch copy to a fairly rep'd member first come first serve
