Thread: [WebBased Stresser Linked To qBot/Botnets](#)

YoungBoy NeverBrokeAgain - October 8, 2016, 7:21 pm

I have recently made a domain " disconnected is the name "

I have bought the domain & web hosting.

I wanna create a stresser on this ofc I will not sell on-site as I'm not ub3r.

I need help getting this stresser up & running as site wise.

I have over 35 Servers & PayPal Money I could Invest

I also need help getting the site up with a working source and getting qBot Up
With L4 & L7 Attacks I have servers

So Basically I'm Looking For A Partner.

Let me know if you're interested and I'll let my contacts below!

Use amplification unless you're willing to pay decent money (\$1000+) for a custom source.

Yes it does. Here's some more help: give it up, you're wasting your money because your stresser is going to be an utter failure. How's that?
