Thread: [Should i release my key logger?](#)

Zenco - October 9, 2016, 9:06 pm

so i was wondering if i should release my key logger for free or sell it. let me know. Features it has:

- SMTP
- FTP
- Stealers
- Custom Intervals
- PC Info
- Hide File
- Pasword Recovery
- Fake Messagebox
- Process Disabler
- Custom Assembly/Icon
- Delayed Execution
- Install Name
- Startup
- Startup Key
- Persistence
- Antis
- Screenlogs

Modern day Hippy - October 9, 2016, 9:07 pm

that's all depending on you op.

you can make some sort of income or give to the community. you call.

true, just want to see what the community thinks i should do.

suckmydickfgt - October 9, 2016, 9:35 pm

i think free would be pretty cool of you and would gain you tons of rep as most newbies want free things : P

Don Genovese - October 10, 2016, 3:23 am

It looks quite good mate. Best of luck with it.

XpressServices - October 10, 2016, 7:04 am

Sell it, it will be detected within a day if skiddies get their hands on it

Reptile-Ermac - October 13, 2016, 8:16 am

looks good , is it being detected by av ? also do add av scan results dude.Good one ?

Renforb098 - October 13, 2016, 8:32 am

release it free and get those reps. :)

EIP - October 13, 2016, 11:46 am

If you want to expand your knowledge to earn more money then release the source code too! You will earn more money in the future.

Is it C++ or .NET?

OurCrocodile - October 13, 2016, 4:18 pm

I'd say you should give it away for free and earn tons of rep

?????? - October 13, 2016, 7:30 pm

I don't think he would earn that much rep, actually.

Considering only upgraded members can give rep, and free tools generally attract leachers.

Detections don't matter that much with the uncripted file.

NEVER distribute the uncripted file m8.

(Oct 13, 2016 08:18 AM)- Sam - Wrote: [\[CITE\]](#) I mean why do you even need to ask such a question? You could give it away and receive what, nothing? Or you can sell it and earn money, I think it's a little self explanatory don't you.

Although if the product sucks then obviously nobody will buy it.

I agree with this.

(Oct 13, 2016 07:37 PM)AfterHours Wrote: [\[CITE\]](#) I am curious to know whether or not it can recover social media account passwords or not. Honestly I have been looking for a program that gets Instagram accounts and so far I have not found any.

as long as they log into their Instagram account on PC, it should work.

SIM-2478232 - October 14, 2016, 4:27 pm

You should release the key logger for free. Their's no other free one's that works.

H3ko - October 14, 2016, 11:15 pm

Compact logger can get instagram accounts, I have personally done it before :p

sendom - October 15, 2016, 6:33 pm

selling it would be a better option even tho some of us are struggling to make ends meet but that dosent mean we should not let you make some income from your sweat... i'd say sell it but randomly give couple of license out as well... just my own thought o

cli??? ???? - October 17, 2016, 2:56 pm

for free pls ... there arent good free keyloggers :/

dorada - October 17, 2016, 3:03 pm

I wonder if you should give it out free to a select group who can let you know if needs improving or not. I would probably give them a deadline of using it for 15 days or so. Once you have their

feedback and make any changes necessary, then put it out there for sale. Just my opinion.

Ray Palmer - *October 18, 2016, 1:40 pm*

Its great if you can Add more features into the keylogger before Releasing it the community

coocochi - *October 19, 2016, 11:40 pm*

If its a project you plan on updating or committing some of your time into it, I think selling it would be good, but not too high a price though.

astro1337 - *October 20, 2016, 7:27 pm*

of course people are going to vote for release causes everyone likes free.
