Thread: [STEAM : PACKAGES - 5.000 GAMES - Windows, Linux and MacOS - Method.](#)

SHOLLEX - October 10, 2016, 10:40 am

Okay I'll be giving out a method how to get all the free games from steam store into your library. This is just a method that helps you collect all free games into your library rather than in store.

The games you add to your Library stays there until you choose to remove them.

[How It Looks Like? ClickMe<-](#)

Note : This isnt any kind of Warez, Keys, Serials, Rips or Cracks or anything similar to this, just an easy method to export all the free game from store into your library - Easy to find and access when you need some free games.

Could be used on any steam account, no matter if new or old one, this is completely safe so you have nothing to worry about.

[PM for more details.](#) Or just comment.

Would love to get some sick demos d00d

Disy - October 20, 2016, 7:01 am

Public method for years; I don't know why you don't just post the link instead of making everyone ask you for it.

Also in a way privatizing a public method by only sharing the link to L33t/Ub3r members, pretty weird man.

Here it is for those who don't want to have their time wasted: <https://steamdb.info/freepackages/>

EgoETEK - November 28, 2016, 7:11 am

please can i have the method my friend :)

I'm not upgraded but is there a way for me to possible get this anyway?

Further question, does the games come up on "Total games owned" on steam profile?
