Thread: [Selling GangWarsRP 2.0 & 1.0](#)

DelziumTheProudWhale_temp - October 10, 2016, 12:28 pm

2.0 500\$ (BTC Only) (Old game database included) (Needs some fixes but nothing too big)

1.0 100\$ (Not the public shit on Isx, this is a fully working copy with some minimal glitches, BTC Only)

^sql down can get one up if anyone is interested, also can get a server up with both gamemodes if needed

Vouch for Delzium, seen both versions he has and they're legit.

Would be a great investment due to having the player database records (ex-players will return because they can start from where they left off). Having personally played this game mode it was a very popular one and if your willing to invest this would be the thing!

Is this still being sold for not as much? I'm willing to buy, I'm looking to have my personal private server to play on with my friends.
