Thread: [PokemonGo Server Status Source Code | Preview](#)

OMARATION - *October 10, 2016, 2:53 pm*

This source code basically finds the status of each PokemonGO server and displays information and such. You can easily market this and put ads and generate some money :) [CLICK HERE](#) for a preview of the source code and it's features.

So why not get it if it's free?

To get this source post below.

PM me for any help.

Note: Please Post to keep thread alive. Got more guides coming soon!(Next guide is a money making one)
