Thread: [\[Australia\] \\$15 off Taxi ride \[Not Uber\]](#)

KazerTheAmazer - October 11, 2016, 12:50 am

Please note: This is valid in Australia I can not vouch for it working in any other country.

Please note: This code may be used multiple times under various names, the taxi driver who owns this referral code will not red flag anybody who uses this method multiple times as he receives a profit from this also.

This is a coupon code allowing users within Australia to get \$15.00 credit for a free ride, if this is used at \$15.00 or below the whole ride is free, if you spend \$17.50 u pay \$2.50 it is quite simple.

Step 1. Download GoCatch through Play store or via the App store

Step 2. Enter payment details, you may use a pre-paid credit card etc; make sure you enter the drivers code of "BGXQV" this code was given to me by my personal driver I always use.

The way this works is the driver gets a bonus for every referral.

You get \$15 credit for a ride; this is not Uber this is for use with any normal taxi service within Australia for example 13CABS within Melbourne.

I am not sure if this works in any other countries, but if anybody tries this in any other country and it does work please do comment as it could be useful for other users.

I hope you guys get some use from this, I was meant to post it last week but I lost the card.?

deiski - October 11, 2016, 12:52 am

You mate, are a fucking champion.

Finally something that isn't US only that I can actually use.

test - October 11, 2016, 12:55 am

This is sick. Does it work with every single taxi company around Aus or are there specific ones only?

KazerTheAmazer - October 11, 2016, 1:06 am

I asked my driver when he gave me the code, he has said it works Australia-wide so this should not be an issue as Taxi drivers download this application to use while they work.

I would suggest using Uber first, then swapping to this for an extended cab trip if you have a long journey.

You are all welcome, I will ask my driver if he can source some extra codes from his friends that drive to see if it is possible daisy-chain the accounts to get never-ending free cab rides but I assume it would be just as easy to just re-use the same code.

Awesome. Is it able to be reused over and over again? Or is this a one time coupon?

KazerTheAmazer - October 11, 2016, 1:14 am

You may use this coupon more then once, but with new accounts. I think this is the code for the Taxi driver not for the user; he hands it to people he gets a few dollars from them and you get a discount for your "first ride" although with new accounts every ride is a first.

Sounds simple enough. Are the rates better on here than Uber? I may just switch to this app instead, it seems a bit better.

KazerTheAmazer - October 11, 2016, 1:21 am

I am not sure about the rates vs Uber but the rates would be similar to standard Taxi rates just a percentage lower? possible 15-25% cheaper I am not certain but will try find this out when I see my driver next.

Thanks! I know Uber costs less and the driver gets more so I would be super interested to see how this app stacks up to it.

KazerTheAmazer - October 11, 2016, 1:26 am

Please do tell me how your experience goes.

I hope many people get use from this as I have seen a few Australian members here and there.

KazerTheAmazer - October 12, 2016, 11:09 pm

Bumping up post so other members can utilise this.

deiski - October 18, 2016, 10:36 pm

This saved me when I was in the city blind as fuck, only had \$10 to get home but then had \$25. CHAMPION

I am glad it helped you get home bud! That extra 15\$ can be a life saver when your shit-faced.

This method still working just re-posting to keep it alive ?.

sami2020 - *November 13, 2016, 4:55 am*

I respect your opinion but it's innormally for me ..thank's

KazerTheAmazer - *December 3, 2016, 5:18 am*

Method still works for those who would like to use it.

Oh and to the guy above me who got repfucked; you probably deserved it.
