My dream is to be a gynecologist when I'm older. Ever since I was a very little boy kids in pre-school would be playing with trucks and shit, but I was like fuck dat I want to be a gynecologist. There is nothing more perfect in this world then a Vagina. Everytime I had to write a essay for school no matter the topic I would just put "Vagina my duds" and then sign my name on the essay. My teachers hated me and failed me. My parents tried killing me a with fork when I was in my ma mas stomach, but you know fuk the haters. Anyways I have work early tomorrow and I hate my life. Gn HF.

Vagina for the win. It's so funny, the thing that people crave the most - is usually the thing they will never see or get.
