What about Multihacker, Social Steal, Lunar toolkit? what do u mean by they dont work lol

?now - October 11, 2016, 4:10 pm

Try lunartoolkit. It has been leaked if you do not feel like buying it aswell. Great tool with a proxy scraper aswell

Anime Is For Pedophiles - October 11, 2016, 8:16 pm

honestly just use sentry mba, it's free. If you need anything made a lot of people on here are very skilled in making configs
