Thread: [What skiddy or retarded threads made you laugh recently?](#)

Lante - October 11, 2016, 8:14 am

Every now and then there's someone who makes a complete retard of him/herself on HF and gives others a good laugh, and I'm not only talking about OP's post but all the replies and quotes below it.

Do you guys have any of those for share?

Just saw this one

<https://hackforums.net/showthread.php?tid=5419762>

but most come from the beginner hacking section.

Anyone can create any thread in the lounge they want. You haven't even left the lounge section looking at your post activity.

Mr. Robot - October 11, 2016, 8:22 am

Uh can't find the thread now but check my given rep and I told the guy to maybe google it for the other guy - check that guys posts and find one about a pcie usb card :)

You have 5 threads and nothing to contribute. Seeing as most of your posts are in the lounge, you should expect nothing but lounge-like threads, just like this one is.

Why does it mater if i have created 5 or 50 threads? And what does it mater if i usually post in the lounge? And the expecting part, eh?
