Thread: [\[FREE\] UNLIMITED YOUTUBE LIKES AND VIEWS](#)

OasisX - October 12, 2016, 3:30 pm

[I apologize if this is the wrong place to put this, I couldn't place it in the freebies thingy in market as I have no reputation yet.]

This is my first thread ? so I thought I'd start by sharing this exploit I found on a website called Likenation. I'm not going to release it as an Ebook or anything because I don't believe it's worthy of that. You can get around 100 likes and 200 views in a day. This is also really easy to do so let's get into it!

- 1) Make an account on Likenation and sign in.
- 2) Click "YouTube Likes"
- 3) Add your channel URL in the box when you get prompted.
- 4) Click Like on a few of the videos & you will receive points for doing so.
- 5) Once you have around 30 points, go to "Add Page", then click the drop down menu and click "YouTube Likes"
- 6) Add your video URL, give it a title (It really doesn't matter what the title is) then click the drop down menu for the number of points the person gets for liking your video. Set it to 10. Leave all the other settings on default and click "Add page"
- 7) Go on YouTube and go to your video manager, then click edit on the video. Near the bottom there's a few tabs, click the "Advanced Settings" tab.
- 8) Lastly uncheck the "Users can view ratings for this video" checkbox then click "Save changes".

The special part here is because you disabled the ratings of the video, everytime someone clicks like on the video, it will go through, BUT when they return back to Likenation to confirm their points it will give them an error and they won't get any points for doing it. That means you get to keep your points on the website and get free likes! Also because you set your video to have 10 points given to each person, it will always be first in the list so more will see it! All you need to do is when you want to stop getting likes and show your like ratio to users, just check the "Users can view ratings for this video" box in the "Advanced Settings" tab.

I hope this helped you guys out! ?

Any positive reputation is greatly appreciated.

P.S if you stop getting likes on your video after a few days, It might be because the admins manually removed it, just repeat this method and you can continue to get likes for free!

Those views are usually very low retention, not really worth botting because they'll disappear in a week anyway.

I've used it on several videos for testing in the past and the views don't disappear as well as the likes.

how to increase youtube view?

HangMansheart - June 30, 2018, 2:49 pm

Hate to say, not an exploit friend. It's just viewbotting, there are tons of websites that do that.
