Thread: [\[AFFILIATION PROGRAM\] >>> GET PAID TO SELL PRODUCTS <<< \[FREE & EASY\]](#)

?yden - October 12, 2016, 8:35 pm

Think you got what it takes to market virtual goods online? I'm offering a limited special where you can market & sell my products and earn a commission for it. This affiliation system is currently in development but does work.

Quote:As an affiliate, your job is to market someone else's product. Every time a buyer makes a purchase through your unique link, you earn a commission off the order. All you have to do is share your unique link and convince buyers to purchase an item with that link. And you get paid every time a buyer uses your link to make a purchase

<https://rocketr.net/blog/knowledgebase/getting-started-with-the-affiliate-system-affiliate-edition/>

How do I get started?

Getting started is really simple. First, you have to visit <https://rocketr.net/affiliates/> and login. Please note that if you already have a Rocketr Seller account, you can use the same information to login to your Rocketr Affiliate account. The accounts are managed together.

After logging in, you need to click on Products and type in the product url of the product you would like to be an affiliate for. For example, if you want to be an affiliate for [FlexHacker Lifetime](#) that I am selling, I would type in the set of digits at the end of the url (in bold) <https://rocketr.net/buy/271467214985> as my product ID and click on the Register to be an affiliate button.

Now all you have to do is spread your unique affiliate link. Every time a buyer uses your link to make a purchase, you will receive an e-mail letting you know how well you are doing.

Pretty damn easy.

Here is a list of my products with corresponding information and links.

Working on signatures for every product. If you would like to advertise in your signature you can do so by linking your affiliation link.
